# Priyanshu Rathee

Designing Since 2024

## Experience

### Intro

Myself

I'm a UI UX Designer and started my journey in early 2024 and made 3+ industry level projects sharing problems and how i solved them ( deeper analysis in case studies). I have Designed Mobile apps, SaaS products and Landing pages, mostly while freelancing and personal projects.

## Education

### Education

Showcase

Learned thru paid courses, Books and refined the skills while working on a personal or client based projects.

### My Process

Some of these processes are used mostly on every project and some depending on the need of the project.

1. First thinking phase:
   - Competitive analysis
   - Heuristic evaluation
   - Visual analytics
   - Initial strategy & goal alignment
   - Mood-boarding
   - Sketches of flows
   - Mind maps
2. Semi-manual work
   - Typeframing
   - Key visual design
   - Creating systems/UI Kits
   - Actual UI design
3. Last thinking stage
   - How to evaluate performance goals (strategy)
   - Ideas for A/B testing
   - Room for expansion
   - Systemized testing
